

**COUNCILMEMBER DONNA FRYE**

City of San Diego  
Sixth District

**MEMORANDUM**

**DATE:** January 20, 2004  
**TO:** Michael Uberuaga, City Manager  
**FROM:** Councilmember Donna Frye  
**SUBJECT:** Street Sweeping on Ulric Street

*Donna Frye*

Early in 2003, a resident of the Linda Vista area contacted me in order to get street sweeping signs posted on the 2500-2700 block of Ulric Street, which is currently on the City street sweeping list. I provided her with the application and petition needed to apply for the signs. I was unaware at the time that the City was no longer posting new signs, and therefore failed to inform her that signs would not immediately be posted on her street. In this application process, she spent many hours collecting signatures of neighbors for the petition required by the City. After collecting the required signatures and submitting all the proper paperwork to the City, her request was placed on a backlog for future consideration and she was not contacted by any City representative to give her an update on the status of her request until last week. I understand that City staff is now updating this process and will be notifying residents when their application is placed on a backlog. I believe the City should make an exception in this case and post the street sweeping signs on Ulric Street.

Therefore, I would ask that the City Manager evaluate the cost of installing new street sweeping signs on the three blocks mentioned above, as well as any costs associated with the parking enforcement for these signs and advise me of the possibility of the signs being installed, if the proper funding can be identified for the upcoming fiscal year.

Thank you for your attention to this matter. Your timely response is greatly appreciated.

DF/ks
